

NASA SEWP VI - IRON BOW TECHNOLOGIES, LLC

CONTRACT HOLDER ORDERING GUIDE

CATEGORY A

80TECH26D2051

ITC/AV Solutions

CATEGORY B

80TECH26D1073

Enterprise-Wide ITC/AV Service Solutions

NASA SEWP VI OVERVIEW

NASA SEWP VI (Solutions for Enterprise-Wide Procurement) gives Federal agencies and authorized users access to Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services. Iron Bow Technologies, LLC holds Category A Contract 80TECH26D2051 and Category B Contract 80TECH26D1073. Both contracts support NASA and other Federal Government requirements within the applicable scope, with CONUS delivery and mutually agreed-upon OCONUS arrangements.

SEWP is a Government-Wide Acquisition Contract (GWAC) supported through a 0.34% usage fee.

WHAT'S IN SCOPE FOR IRON BOW'S SEWP VI CONTRACTS?

Category A - ITC/AV Solutions | Contract 80TECH26D2051

Category A provides ITC/AV products and product-based solutions, including hardware, software, cloud-based solutions, installation, integration, testing, training, maintenance, and related services.

Category B - Enterprise-Wide ITC/AV Service Solutions | Contract 80TECH26D1073

Category B provides enterprise-wide ITC/AV service solutions, including cloud, managed, shared, and other strategic services that enhance agency ITC/AV infrastructure and support mission requirements.

FAIR OPPORTUNITY

SEWP VI is a multiple-award contract. Ordering agencies are responsible for meeting applicable fair opportunity requirements under FAR 16.505(b). The NASA SEWP Quote Request Tool (QRT) is the recommended method for requesting and documenting competition among appropriate Contract Holders. Iron Bow will quote only products, solutions, and services available under the applicable SEWP VI contract and will comply with SEWP online quoting requirements.

- For market research, items not yet available on Iron Bow's SEWP contract must be clearly identified as unavailable and processed through the applicable technology refreshment process before they may be offered under the contract.

For an RFQ or Market Research Request (MRR), Iron Bow will respond with items available under the applicable contract. If Iron Bow cannot fully meet the requirement, it will submit a No Bid unless the request expressly permits partial quotes.

Quoted pricing will not exceed the applicable SEWP contract price in the SEWP database of record. Each quote will state its validity period, and Iron Bow will honor orders submitted within that period. Eligible orders may be set aside for small business concerns in accordance with applicable acquisition requirements.

ORDERING PROCESS

Each Federal agency follows its own process for Purchase Requests (PRs) and Delivery Orders (DOs). Typically, the end user defines the requirement and submits a funded PR to the agency's procurement office. The issuing agency places the order using an appropriate Federal

order form, and the NASA SEWP Program Management Office processes and tracks the order.

Order modifications must also be routed through the NASA SEWP Program Management Office. Ordering Contracting Officers remain responsible for their agency-specific policies and procedures.

HOW TO OBTAIN A QUOTE / ORDER SUPPORT

Customers may use the NASA SEWP Quote Request Tool (QRT) to request quotes within Iron Bow's Category A or Category B scope. For assistance with quotes, installation, warranty, technical or software support, order status, or post-delivery issues, contact Iron Bow at info@ironbow.com.
