

* shown with optional Horus Scope

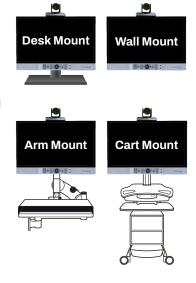

The Clinical Care Device (CLINiC™) P1227 is an all-on-one, purpose-built, virtual care device that can be integrated with a full-featured, rugged, computing workstation to enable virtual consults. The device features a patented, intuitive, one-touch interface that abstracts technology for the patient-side nurse and lends itself to a frictionless experience. The device can be integrated with clinical peripherals like a digital stethoscope, general exam camera, otoscope, dermatoscope, ophthalmoscope and others.

Features & Benefits

Flexible Mounting Options

Perfect for deployments where space is at a premium. The flexible design allows you to select the best solution to meet your clinical use case, physical environment and budget instead of the traditional one size fits all approach.

- Integrate with a mobile cart
- Use with a fixed wall mount
- · Use with an articulating arm
- · Use with a desk mount

Easy Deployment

The CLINiC leverages a Mounting Interface, installation and replacement minutes in almost environment. The simplistic purposefully enables ease of installation and both capital acquisition operating expenses.

IronCare Managed Telehealth Services – Warranty, Monitoring And Maintenance

IronCare™ Managed Telehealth services for IronMed devices are designed to ensure maximum service availability and user satisfaction while minimizing IT support efforts. Specific services include:

Advance Replacement Warranty

(ARW) - extended warranty featuring 2nd day replacement, initiated prior to return of the customer unit.

IronCare Monitoring – continuous monitoring of network and unit behavior to address potential issues before they affect the user experience.

IronCare Maintenance - ensures updates and patches are deployed to avoid security concerns and ensure optimal user experience.

IronCare Deployment - on-site installation/replacement services to relieve IT staff and rapidly and reliably deploy units.

IronCare Cloud Video – a secure, high quality platform for rapidly enabling video consultations between Iron Bow endpoints, video conference rooms, patients and any other standardsbased video endpoint.
