

# IronMed CLINiC

(C1227)

A purpose-built telehealth  
consultation device

\* shown with  
optional Horus Scope

The Clinical Care Device (CLINiC™) C1227 is an all-on-one, purpose-built, virtual care device that can be integrated with a full-featured, rugged, computing workstation to enable virtual consults. The device features a patented, intuitive, one-touch interface that abstracts technology for the patient-side nurse and lends itself to a frictionless experience. The device can be integrated with clinical peripherals like a digital stethoscope, general exam camera, otoscope, dermatoscope, ophthalmoscope and others.

## Features & Benefits

### Flexible Mounting Options

Perfect for deployments where space is at a premium. The flexible design allows you to select the best solution to meet your clinical use case, physical environment and budget instead of the traditional one size fits all approach.

- Integrate with a mobile cart
- Use with a fixed wall mount
- Use with an articulating arm
- Use with a desk mount

### Easy Deployment

The CLINiC leverages a VESA Mounting Interface, allowing installation and replacement within minutes in almost any environment. The simplistic design purposefully enables ease of installation and reduces both capital acquisition and operating expenses.

## Intuitive Interface

Standardized user interface, purpose built for a medical environment and designed for ease of use. Significantly reduces training time and increases end user adoption.

## Supports Optional Peripherals

## Sony SRG-120DH 12X camera

**Ideal Telehealth Use Cases:** Stroke, Behavioral, ICU, Patient Bedside or anywhere a strong pan/tilt/zoom camera is required.

**Microphone:** Integrated speakers and microphone.

### CLINiC Control Panel:

## IronCare Managed Telehealth Services – Warranty, Monitoring And Maintenance

IronCare™ Managed Telehealth services for IronMed devices are designed to ensure maximum service availability and user satisfaction while minimizing IT support efforts. Specific services include:

**Advance Replacement Warranty (ARW)** – extended warranty featuring 2nd day replacement, initiated prior to return of the customer unit.

**IronCare Monitoring** – continuous monitoring of network and unit behavior to address potential issues before they affect the user experience.

**IronCare Maintenance** – ensures updates and patches are deployed to avoid security concerns and ensure optimal user experience.

**IronCare Deployment** – on-site installation/replacement services to relieve IT staff and rapidly and reliably deploy units.

**IronCare Cloud Video** – a secure, high quality platform for rapidly enabling video consultations between Iron Bow endpoints, video conference rooms, patients and any other standards-based video endpoint.
