

# "Always Ready" Cyber Attack Protection

Our dedicated cyberwarriors live to fight cyber adversaries on your behalf, 24x7x365. We proactively conduct SECOPS, disciplined daily cyber hygiene, threat hunts, and cyber weapons inspections, so you can stay focused on your business.

## We Outthink, Outpace, and Outdo Sophisticated Attacks

Our strategic Cybersecurity Maturity Model Certification (CMMC) Third-Party Assessing Organization (C3PAO) partners combine to act as a force multiplier for DoD contractors or any company seeking to comply with "Level 1 - Basic Cyber Hygiene" through "Level 3 - Advanced / Progressive Cybersecurity." Organizations without the expertise or resources to meet the threat detection and response requirements put forth by CMMC can trust our SECOPS offerings to help them meet those requirements. The approach of outsourcing to Managed Security Services Providers (MSSP), is often the most cost-effective path to achieving CMMC compliance.

Our cybersecurity as a service model helps organizations guard their critical assets, data, and reputation via Cybersecurity:

### Operations

### Assessments

### Response

### Consulting

## Mission Critical Solutions

### Operations (SECOPS)

- Handler on Duty (HoD) 24/7
- Attack Prioritization
- Notifications
- Daily Cyber Hygiene Routines
- Threat Monitoring & Detection
- Threat Hunting & IOC Patrols
- Threat Intelligence Integration
- Cyber Weapons Inspections

### Assessments (VULN)

- Vulnerability Management
- Vulnerability Scanning
- Penetration Assessments
- Maturation Assessments
- Ransomware Simulations
- Phishing Simulations
- Social Engineering
- NIST CSF/800-171

### Response (CIRT)

- Cyber Incident Response
- Identification & Containment
- Eradication & Recovery
- Opportunities for Improvement
- After Action Reporting
- Preparation Planning
- Response Readiness Training

# Customizable Packages

## BASIC

- 24/7/365 Threat Monitoring & Detection
- Attack Prioritization
- Notifications

## STANDARD

- Includes everything in Basic + Handler on Duty 24/7
- Attack Triage & Containment
- Threat Hunting & IOC Patrols
- Threat Intelligence
- DNS Policing
- Compliance Reporting & Guided Incident Response

## PREMIUM

- Includes everything in Standard + Vulnerability Scanning
- Vulnerability Management
- Penetration Assessments
- Social Media Analysis
- Dark Web Analysis
- Security Awareness Training
- Designated Analyst Team
- VCISO Services
- GRC & Data Privacy Services
- Custom Services & Solutions
