

"Always Ready" Cyber Attack Protection

Our team of dedicated cybersecurity experts work to combat cyber threats on your behalf around the clock, every day of the year. We take a proactive approach through Security Operations activities, helping you to maintain disciplined daily cyber hygiene, conduct threat hunts, and thoroughly inspect your cyber posture, so you can stay focused on your business.

We Outthink, Outpace, and Outdo Sophisticated Attacks

Attackers traverse infrastructures and assets opportunistically and unpredictably. Proactive capabilities to detect and block early can mean the difference between successful cyber defense and reduced damage, and your company operations grinding to a halt. Our team of cyber security professionals think like your adversaries to detect and respond beyond the endpoint to stop sophisticated attacks earlier and more effectively.

Our cybersecurity as a service model helps organizations guard their critical assets, data, and reputation via Cybersecurity:

Cyber Security Solutions

Operations (SECOPS)

- 24/7 Dedicated Cyber Security Analyst
- Attack Prioritization
- Notifications
- Daily Cyber Hygiene Routines
- Threat Monitoring & Detection
- Threat Hunting & IOC Patrols
- Threat Intelligence Integration
- Cyber Weapons Inspections

Assessments (VULN)

- Vulnerability Management
- Vulnerability Scanning
- Penetration Assessments
- Maturation Assessments
- Ransomware Simulations
- Phishing Simulations
- Social Engineering
- NIST CSF/800-171

Response (CIRT)

- Cyber Incident Response
- Identification & Containment
- Eradication & Recovery
- Opportunities for Improvement
- After Action Reporting
- Preparation Planning
- Reponse Readiness Training

Customizable Packages

BASIC

- 24/7/365 Threat Monitoring & Detection
- Strategic Incident Management
- Notifications
- Playbook Review

STANDARD

- Includes everything in Basic + 24/7 Dedicated Cyber Security Analyst
- Attack Triage & Containment
- Threat Hunting & IOC Patrols
- Threat Intelligence
- DNS Policing
- Compliance Reporting & Guided Incident Response

PREMIUM

- Includes everything in Standard + Vulnerability Scanning
- Vulnerability Management
- Penetration Assessments
- Social Media Analysis
- Dark Web Analysis
- Security Awareness Training
- Designated Analyst Team
- VCISO Services
- GRC & Data Privacy Services
- Custom Services & Solutions
